

# Restore Your Skin Restore Your Youth

Discover  
the secret  
of youthful,  
radiant skin.

Sample  
order@glycotools.com

A close-up, slightly out-of-focus photograph of a woman with blonde hair looking into a circular mirror. The mirror is held in her hand and contains text. The background is a soft, blurred light color.

Can you  
remember the  
first time you looked  
in the mirror and  
realized that things  
were changing?

*We may not feel any different or older, but the external signs are showing. The blemishes, wrinkles, crows feet, baggy eyes and sagging skin makes it all too obvious. We don't feel good about ourselves and become frustrated. For some, this is a gradual realization, and for others, it is a total surprise.*

The truth is,  
time slows for no one.

Are time and aging catching up with you? Has the daily exposure to sunlight, air pollution, toxins, and stress caused your skin to age prematurely?

For most people the answer is YES!

Estheticians suggest that natural aging begins after the age of 25. They state that today's environmental conditions speed up the aging process by as much as 80%. Everyday living is harsh on your skin.

## It is dreadful. There is no escaping it.

It seems every time we look in the mirror there is a new wrinkle, pimple or age spot staring at us.

Think about it. How many of the following issues concern you?

- **Fine Lines and Wrinkles**
- **Deep Creases**
- **Sagging Skin**
- **Bags under the Eyes**
- **Large Pores**
- **Loss of Elasticity**
- **Dry and Thinning Skin**
- **Lackluster Tone**
- **Increased Blemishes**

If there are more than two or three, you are showing the signs of aging and skin issues. Skin issues should be a thing of the past, not a common occurrence. It just isn't fair. Aren't we supposed to be over all of that? The feeling that our youth is slipping away and we are getting old makes us want to just scream.

And, if you are under the age of 25, are you concerned that these issues could be in your future?

## Self-conscious and frustrated.

We attempt to do whatever we can to cover up the problems while we try desperately to solve the issue of looking old.

But, where do you turn? How do you sort through all the hype without spending a small fortune? And, how do you know which skin care systems are safe to use?

## It makes no sense.

A skin care system should take care of your skin, not harm your skin. Yet most skin care systems contain parabens and other preservatives that may put your health at risk.

Uneducated consumers spend billions of dollars on skin care products to look healthier and younger. Unfortunately, these consumers are unknowingly purchasing products that can accelerate aging and harm the skin and body.

There have been no real, safe, long-lasting solutions.

**FACT.** The vast majority of the skin care systems on the market today are over-priced and underperform.

### Health Warning:

Many skin care products are harmful because they:

- can cause your skin to age faster than normal;
- are linked to endocrine (hormonal) disruption, and skin sensitivity; and
- can cause rashes, immune system reactions, hives, scaling, and digestive tract and liver toxicity.

# Until now!

What's the solution to restoring your skin?

# Water.

Not just any water. The very special water of the Hunza Valley in Asia, where people have incredible longevity.

The water of the Hunza Valley has three unique properties:

- the water hydrates and detoxifies the body faster than other water;
- the water contains a high concentration of negative ions, which acts as a natural antioxidant; and
- the water contains elevated levels of soluble minerals.

This remarkable water has been replicated and enhanced to create “Tensa” water, which means “heavenly” water.

## Clinical Proof.

Research shows that “Tensa” water hydrates skin cells more effectively than other filtered waters.

It actually penetrates into the deepest cellular layers of the skin, transporting with it other valuable agents.

The most unique characteristic of the “Tensa” water is it creates an environment in which no bacteria or molds can grow. It is the ideal foundation for a skin care system. You will find that it will nourish and hydrate your skin to restore and maintain your youthful glow.

This

## Dramatically reduce the signs of aging.

After one use, participants in a clinical testing program experienced an 80% increase in skin hydration.\*

After eight weeks of use, the same participants saw:

- 100% Increase in Skin Hydration
- 96% Reduction in Skin Roughness
- 73% Improvement in Skin Radiance
- 31% Improvement in Skin Tone
- 32% Reduction in Fine Lines and Wrinkles

You'll **visibly reduce the age of your skin within 3 minutes** of using this system. In no time at all, you'll notice your fine lines and wrinkles have diminished, resilience and firmness have been restored, and the texture and tone of your skin have improved.

## Uniquely created.

You will love the fact that this system is

- Formulated without Paraben Preservatives
- Fragrance Free
- Non-Comedogenic (will not cause or aggravate acne)
- Allergy Tested
- Suitable for all skin types, even for sensitive skin.

After just a few applications, your face will be smoother with a noticeable difference in hydration. Many people report that with extended use, deep wrinkles that they never thought would go away, disappear. It is the safe way to restore your skin. No needles or painful injections.

Your friends will be amazed, and you'll love the extra attention you get from looking so good.

\*Clinical test results were conducted by Stephens and Associates, Carrollton, TX, specialists in cosmetic and skin care testing.

product lives up to its promises.

I never used to be into skin care “systems.” The ones I tried always made me feel like I was wearing a mask and made my face itch. Also, I didn’t “get” all the different steps—it just seemed as though I was putting more and more sticky stuff on my face.

The most I would use was a moisturizer before going to bed at night. During the humid months of the summer, I often skipped it entirely. This seemed to work okay for me—all through my thirties, forties, and early fifties, people usually assumed I was ten years younger than I actually was.

However, when I got into my late fifties, the wrinkles and the sagging skin began to set in big time. I wasn’t fooling anyone anymore. I began to dread looking in the mirror because it looked to me as though someone had stuck an old woman’s head on my body when I wasn’t looking.

Fortunately for my vanity, I heard about this system. After hearing rave reviews from other women who had been using it, I decided to try it myself.

I saw an immediate difference after using the cleanser. My skin was so smooth, soft, and clean. It looked as though all the old, dead skin had disappeared. I learned later that the cleanser was actually exfoliating as it cleaned, but I would never have guessed because there was no trace of grit in it at all—just smooth, silky lather.

I’ve been using the five main products faithfully every morning and evening, and I’m very happy to report that the whole process takes only 4 or 5 minutes. The products are very light, and never give me that heavy, sticky build-up feeling. They just make my skin incredibly smooth and soft—like baby skin.

Within the first two weeks, I noticed that the skin around my eyes was becoming more elastic and less wrinkled, especially my eyelids. After a few more weeks, the dimple in my cheek that had become a deep crease became a dimple again.

After two months, my husband commented that I looked like I was in my early forties again. I must confess, I like what I see in the mirror! This system is bringing out a streak of vanity in me that I didn’t know I had. I’m really enjoying this!

*Liz M., Virginia, Age 58*

Before

After 45 days

I am obsessed with aging! I have struggled with smile lines (wrinkles) from years of dehydration and rubbing my eyes from allergies. I have also struggled *a lot* with premenstrual breakouts after having kids, getting off the pill, and stress from my heavy workload. I also pick at my face, so the 2–8 blemishes I would get before my period would end up as a battle field of wounds for 2–3 weeks afterwards—leaving only one week of the month when I would have clear skin.

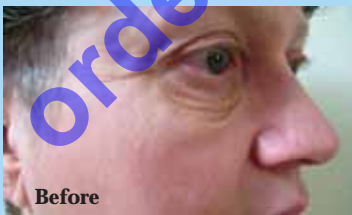

In my mid-30's I became very discouraged with the wrinkles that were appearing and the premenstrual breakouts. I have spent a small fortune searching for that skin care line that would truly do what it says. To no avail. I have ended up, over the last few years, using a combination of products and have kept the problems to a minimum. I have kept my face appearing “moist”, but NOTHING for the wrinkles!

A nurse friend of mine started talking to me about parabens used as preservatives in skin care. She referred me to a web site, [www.cosmeticsdatabase.com](http://www.cosmeticsdatabase.com). The connection between parabens and health challenges, not to mention all the other questionable ingredients in skin care products caught my attention—I had no idea. This web site has tested over 15,000 ingredients and has rated almost every product out there—unfortunately for me, all of the products I was using were rated from medium to high concern. This was enough to scare me into looking for yet another option, but I really wasn't sure where to go from there.

Then I got introduced to this system. Oh, WOW!! Within the first day, my skin honestly felt more supple, but to my greater surprise—my blemishes had all but disappeared—within one day! I couldn't believe it, so I waited and waited—expecting the typical breakout from starting a new skin care line—but it NEVER happened! I just kept thinking it was too good to be true, but the results spoke for themselves. And my skin tone and color have changed dramatically.

I will NEVER use another skin care line again. I love these products!

*Kim W., Colorado, Age 41*

Before

After 37 days

I have never used any skin care products before, but after hearing about this one, I decided to give it a try. I'm so glad I did. This skin care system has helped my face look younger. In fact, it's like 10 years have been erased.

The changes were very gradual. It wasn't until I compared pictures that I saw the big difference. When I show people these pictures, they are amazed. I found that these products actually hydrate my skin, and make it feel smooth and soft. And for the first time, I am really enjoying skin care.

*Mary G., Nebraska, Age 58*

**Before**

**After 8 weeks**

When I began using the system, I felt a tightening of my skin from the inside. It was strange, but it was like my cells were moving closer together. It wasn't the outer skin that pulled, but the inside. Three days after I started using it, people could already see a difference. My face felt like it was actually lifting.

After using the eye cream for a week, my eye that was droopy was no longer droopy. The deep lines

from my mouth and nose were going away. My skin tightened to the point where my face was thinner.

I had a scar across the bottom of my chin from a fall at age four and it was no longer rough, but now smooth.

I love the feeling of my skin, and I love the feeling of the products as I use them. I will never use anything else. Even though I had been using a leading skin care system for two years that advertised botanical natural ingredients, it very obviously does not compare.

*Mae H., Texas, Age 67*

**Before**

**After 1 month**

**After 3 months**

I am so thrilled about the skin care system and what it has done for me. I was in the labor union for seven years working as a flag person on highway construction. We often worked ten hours a day, six days a week. This was at a time when sun block was virtually unheard of.

In my first days of working on the highway, I had severe skin damage due to the sun burning. My skin began to look like dried leather.

When I started using the skin care system, I started to notice a difference in how my skin felt after just a few days. The hydration made my skin feel smoother, softer and more pliable. I realized that my saggy neck was disappearing and tightening around my jawbone area. It was almost as if I got a face lift.

After one month, my friends said I looked 10 years younger. I continue to see improvements with my skin every day.

*Wanda A., California, Age 66*

I have been actively using advanced skin care lines since my mid 20's. I have tried lots of high end products. The last one was a prescription skin care line from the doctor. I had used it for two years. It was so harsh my skin had no radiance, but it did help with the fine lines and somewhat with the pores.

**Before**

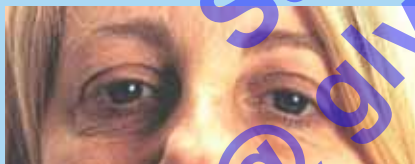

**After 10 months**

I started this skin care system in early September, and by January my skin had completely changed. Now after ten months, I can't believe all the compliments I get. My skin is much more radiant. My eyelids have lifted and the puffiness around my eyes is gone. The fine lines are going away and my pores are smaller. What more could you ask for?

It is a total transformation.

We are in Wyoming for the summer and the climate up here is so harsh and dry. This year for the first time my skin is totally hydrated and no BREAKOUTS!

*Nikki T., Oklahoma, Age 38*

**Before**

**10 weeks later**

From the first time I applied the products to my face, the feeling I have experienced has been one of absolute luxury. For about 30 minutes after applying the products, I have an incredible sensation as the products absorb into my skin. I look forward to putting them on every morning and night. There is a tingling, joyous feeling knowing I am giving my skin hydration.

I never knew I had any wrinkles because I don't smile at myself in the mirror. But, after looking at my before picture, it was a rude awakening to see just how many wrinkles I did have.

At the 10 week mark which is pictured here, the lines around my mouth were softening and wrinkles under my eyes were disappearing. I was really impressed with the effectiveness of these products.

People can't get over the difference in the overall look of my skin. I have been told the pores look much smaller as well as being asked if I am using different makeup. Several people have told me that I look younger.

I don't have experience with other skin care lines because I was always turned off by the need to figure out the skin type in order to decide which line/products to use. The prices of good lines were much more than I was willing to spend, but these products are so reasonable and last a long time. They feel absolutely wonderful on my skin. I will never stop using them!

*Julie L., New York, Age 47*

**Before**

**After 3 weeks**

I began using the skin care system after having tried everything else on the market. As a teenager I had gorgeous, flawless skin. When I entered my twenties, I started breaking out. It was very frustrating for me. After going through nearly every skin care line on the market, I began to give up.

When I started using the skin care system, my skin immediately felt softer and my breakouts began disappearing after only five days. I no longer had dry, itchy patches, and irritated skin. Any blemishes that did develop were not painful, deep, or noticeable. Within three weeks, my skin was 99% clear—I couldn't believe it! People who didn't know that I was using a new line of skin care were constantly commenting on my "glowing skin".

I now look forward to washing my face. It feels as though I am giving myself a super-hydrating facial on a daily basis. The cleanser is so gentle, yet you actually feel it cleansing deep down as it provides your skin with the most silky results. The balancer is actually my favorite product. It truly feels as though my skin thirsts for the quench that this gentle, alcohol-free toner provides. I strongly recommend this product to people who suffer from breakouts or similar problems, as this is the key for balancing the pH levels in skin.

As for the rest of the products, they are phenomenal. The eye cream and moisturizer provide deep hydration without the sticky, greasy feeling that other oil-based products provide. The serum is also a great piece in the puzzle to promote radiance, lift, and youthful skin.

These skin care products are absolutely the most wonderful products I have ever put on my face.

*Lindsay S., Ontario, Age 26*

I have used what I thought was a good skin care regime since I was 18, but never has anyone commented on the look of my complexion until recently. When we moved to Colorado two years ago, I started seeing a new dentist and on my first visit they set up my patient file and took my picture. At this office, each time a patient checks in for an appointment, a picture of that person pops up on their screen. In August of last year I started using this skin care system. In December, I went back to my dentist for a check up. I signed in at the counter and went to sit down in the lobby. By this time I

had been using the skin care system for four months. After my picture appeared on the receptionist's computer screen, she called to me and asked, "Wendy, what are you doing differently to your skin? You look younger today than you did in the picture we have on file of you that was taken two years ago!" She was so amazed that she called all the gals on staff to the front desk to show them the difference in my picture and me!

*Wendy K., Colorado, Age 52*

After using the system for a few weeks, a friend said my face looked great. I said, "It's just the skin care— I'm not wearing any makeup right now!" She said, "No way!" At first she didn't believe that I wasn't wearing any foundation or anything. I told her, "I just got out of the shower a couple minutes ago!" She grew more and more amazed, and finally grabbed me by the shoulders and pushed me directly under the brightest light in the room, so she could look at my skin more closely. "This is unreal!" she said, "Your skin is perfect!"

*Robin M., Washington, Age 27*

I have been a European trained Esthetician for 16 years working at very high-end spa in Boulder, CO. I use the finest and most expensive skin care products and protocols available on the market.

Based on the quality of products I use and have worked with, I was obviously skeptical about this skin care line and its claim to be better than anything else on the market.

Wow, I was surprised and amazed! The simplicity of the line is brilliant and it suits every skin type! It is the best skin care line I have ever used.

*JaneLee M., Esthetician, Colorado*

I have personally been using this system for more than six months with truly wonderful results. I have been the owner of a day spa and skin care center for many years. As an esthetician for over twenty-five years, I have researched many different product lines to find the very best I could for many different skin types— very sensitive, those with allergies, very dry problems, aging skin, and of course those of us who have suffered with acne.

This is a skin care line that addresses all of these problems, which I had thought impossible.

It is a product that makes your skin feel like you have just had a professional facial treatment, as well as a sequence of products that seems to exfoliate the skin so that it feels velvety smooth all of the time.

The cleanser is like none other since it exfoliates and hydrates as it cleans. The hydrating properties are remarkable, with a noticeable difference immediately. This gives the skin a youthful and radiant look.

There's also a wonderful ingredient contained in this line that has a "botox" effect which will make lines in the skin less visible.

There are many wonderful products on the market, but I do have to say none of them compare to this.

*Mari F., R.N. (retired), Former Esthetician, Nevada*

# Restore, nourish and protect.

*Your youthful look is not gone forever, it is in your future. No longer do you have to accept skin that is full of wrinkles, age spots, large pores, sags and bags. It is time to turn back the clock of aging.*

## Restore your skin and your youthful look.

Aging is a fact. We can't avoid it. But, now, for the first time, wrinkles, sags, bags, blemishes, and dry thinning skin are completely negotiable.

Today is the day to begin your journey to restore your skin and your youthful look. You are going to love how you look and feel. And enjoy the many complements you will receive. Radiant, youthful-looking skin is now within your reach.

## 100% Satisfaction Guaranteed

You'll be thrilled to know that if you do not get the results you desire with this skin care system in six months, you'll get your money back. This is a very unique promise in the skin care industry!

Please contact the person who gave you this information to get your skin care system. Do it today and you'll look younger tomorrow.
